There are required fields in this form marked ❗.

2.5 Once registered, you will receive a welcome email with a link to activate your account. Click on this link or copy and paste it into your browser and you will

be automatically logged into your account. If you don't receive this email, please check your junk folder.

2.6 If you forget your username and/or password, you can reset them by clicking on the 'Forgotten your username or password' link.

3. Technical support

3.1 If you have any technical problems, please email: fsasupport@indegu.co.uk

4. Getting started

4.1 From the homepage access the main course menu by selecting the 'complete survey and start course' button.

4.2 The survey is anonymous and will help us understand which user-groups are accessing the training and help make future improvements. Select the 'start survey' button.

4.3 The modules will appear once the survey is completed.

Module 1: Effects that allergies have in the body	**Module 2: The rules for allergen information**	**Module 3: Managing allergens in the factory**
→ Start module 1	→ Start module 2	→ Start module 3
→ Take module 1 test	→ Take module 2 test	→ Take module 3 test
→ View module 1 transcript	→ View module 2 transcript	→ View module 3 transcript

5. Course modules

5.1 The modules that make up this training cover six themes:
- Module 1 - Effects that allergies have in the body
- Module 2 – The rules for allergen information
- Module 3 – Managing allergens in the factory
- Module 4 – Providing accurate allergen information for prepacked and non-prepacked food
- Module 5 – Managing allergens in a catering environment
- Module 6 – The use of voluntary labelling

5.2 Each module consists of bite-size lessons, including:
- an introduction with the module's objectives
- knowledge check for you to check your understanding of what you have learnt
- a summary of the learning outcomes

5.3 Once you have studied each module you will be ready to take the relevant module test, covering material from the module.

5.4 You can complete the training in one go or in small chunks and return later.

6. Transcripts

6.1 Transcripts of the modules are also provided on the main course menu under each module. These transcripts are designed to be used with assistive

technology, such as screen readers, or as an alternative mode of learning, including working offline.

6.2 If you use the transcripts, you will still need to complete the tests online.

7. Tests

7.1 You can access the assessed tests for each module from the link at the end of the module or the main course menu. The purpose of the tests is to assess your knowledge and understanding of the content contained in the module. You will not be tested on any information from the external sites or PDF documents, provided during the training.

8. CPD certificate

8.1 If you answer 85% or above of all questions correctly on the end-of-module tests, you will be able to download a Continuing Professional Development (CPD) certificate to demonstrate your knowledge. Please note that you must complete and pass all 6 module tests to obtain your certificate.

8.2 Once all 6 module tests have been successfully passed, a button will appear on the homepage to allow you to download your certificate. You will need to click the 'Download certificate' button and then click on the 'View certificate' button which will appear. Please note that your certificate will not be emailed to you. If your certificate has not appeared, please check that you have completed and passed all the module tests.

8.3 You can complete the training and/or the tests again at any point and obtain a new certificate (if the tests are **successfully** passed). Alternatively, you can update your understanding of specific modules at any time.
